- Nodejs
- Framer Motion

Temiloluwa Adediran

EXPERIENCE

September 2025 - September 2025

Interactive Developer Portfolio React.js, Nextjs, Tailwind CSS, Framer Motion | Abuja

Designed and developed a high-performance, animated personal portfolio website to showcase technical skills, projects, and professional journey. Leveraged Next.js for server-side rendering and optimized SEO, Tailwind CSS for rapid, responsive UI development, and Framer Motion to implement smooth page transitions, hover animations, and scroll-triggered effects — enhancing user engagement and visual storytelling.

- Implemented responsive design principles to enhance mobile user experiences.
- Optimized websites for mobile devices and tablets through responsive design techniques.
- Built animations and models showing objects in motion:
- Controlled light, texture and shadows to create lifelike characters.

September 2025 - September 2025

Online learning platform for E-Courses React.js, Tailwind CSS | Abuja, NG

Created a responsive, user-friendly e-learning platform tailored for Nigerian secondary and tertiary students. The platform features categorized course listings, video previews, instructor bios, and a clean UI optimized for low-bandwidth environments — addressing accessibility, challenges common in local contexts.

- Developed reusable React components: CourseCard, VideoPlayer, NavBar, Footer, e.t.c

- Designed mobile first layout ensuring usability on Android devices (common in Nigeria).

- Maintained updated knowledge through continuing education and advanced training.
- Utilized various software and tools to streamline processes and optimize performance.

September 2025 - September 2025

Netflix inspired streaming UI React Js, Tailwind CSS | Abuja, NG

Built a sleek, responsive streaming interface inspired by Netflix, customized to showcase movies and series. Focused on replicating core UX patterns — hero banners, horizontal scrolling rows, hover-to-reveal info cards, and category-based browsing — while ensuring performance and mobile compatibility.

- Replicated Netflix's UI patterns: auto-scrolling carousels, dynamic hero section, and modal popups for movie details.

- Used CSS transforms and transitions for hover animations (scale, opacity, backdrop blur).

Utilized various software and tools to streamline processes and optimize performance.

EDUCATION AND TRAINING

January 2024 - September 2027

Bachelor of Science | Accounting

Nasarawa State University, Keffi , Keffi, Nigeria
